## Process Discovery version 1.67.0 Release Notes

Review the new features and fixes available in this release.

Release Date: 25-April-2023

For information related to features and fixes in previous Process Discovery releases, see the PDFs for these releases: [Process Discovery documentation \(release versions\)](#).

**Note:** Process Discovery Version 1.68.0 will be an internal-only release.

### Features

Process Discovery automatically assigns a descriptive name based on the window title to screen signatures captured from frequently-used applications. For the full list of applications, see [Applications with auto-assigned screen signatures](#)

### Fixes

Users can now open the Advanced tab when editing a cloned mining run that has a date range configured.
