Process Discovery version 1.72.0 Release Notes

Review the new features and fixes available in this release.

Release Date: 10-July-2023

For information related to features and fixes in previous Process Discovery releases, see the PDFs for these releases: [Process Discovery documentation \(release versions\)](#).

Note: Versions 1.70.0 and 1.71.0 were internal-only releases.

What's new

The Flow Graph offers business analysts new process visualization to gain insights

The Flow Graph page enables users to identify with a single click the most common steps in a path or the paths which contain that step, as well as any process loops, where a user returns to a previous screen or application.
